SCTR P level three course for specialist advisors May 8th - 10th 2013
Topic created By - Janice Rossabi (29 March 2013 - 17:53:34)
The SCTR P 3-Day Course (The Maudsley Training) is one of the main resources for the UK stop-smoking service. It aims to equip participants with the knowledge and skills needed to provide state-of-the-art treatment, so they are confident that they have an up-to-date grasp of the field. The course is run by some of the leading UK researchers and practitioners, it provides extensive hand-outs, and offers an annual update and supervision event.

Event
Towards a Generation Free From Tobacco - The ASH Scotland 40th Anniversary Conference, 20-21 Jun 2013. The John McIntyre Conference Centre, Holyrood Park, University of Edinburgh, Scotland. Bringing together delegates from Scotland, the rest of the UK and across the world, to learn from international good practice and innovation.

Call for Blogs
Do you have a tobacco control blog you would like to share with the rest of the GLOBALink members? Please contact us.

Call for Case Studies
Do you have an example of good practise, that you would like to share with the rest of the GLOBALink Community? If the answer is YES! Please contact us, with details of your case study, including a brief summary and links to any relevant information on your own website.

Membership Directory
GLOBALink is an international network of the tobacco control community. It allows users to share information and resources related to the tobacco industry and smoking, e.g. local initiatives, news, policy, projects and has active discussion forum. GLOBALink is now maintained by the UK Health Forum, since 30 April 2012.

The GLOBALink Repository
The GLOBALink Repository holds over 800 records. As a member of the GLOBALink Community you can upload your documents, to share with the rest of the members! Please refer to the GLOBALink Get Started Guide for hints and tips on using the site.
All the articles featured in each issue of RITA (and many more items of interest) are also included in the GLOBALink Repository. The repository is a searchable database which displays records mapped geographically to a particular location. So if you saw something of interest in a previous issue, but now can't find it you can search here. You can also get an update of research at any time by visiting the RITA page on the GLOBALink website.

The Legacy Tobacco Documents Library
This library is provided by the University of California, San Francisco. You can search the full library online: http://legacy.library.ucsf.edu
