Independent global accountability for NCDs

Robert Beaglehole, Ruth Bonita and Richard Horton
Accountability for NCDs: background and lessons

- Commitments in Political Declaration on NCDs, 2011
- Global NCD mortality reduction goal, 25 X 25
- WHO Global Monitoring Framework, 2013; 8 targets
- Lessons esp. from Commission on Accountability for Women’s and Children’s Health, and HIV/AIDS

Question: How do we ensure commitments are met?
Answer: Through an independent accountability mechanism
Accountability for NCDs: principles

- Shift from mutual to independent accountability
- Establish appropriate model: monitoring, review, and remedial action
- Targets and indicators: small set
Accountability for NCDs: framework for national and global mechanisms

• Monitoring, review and action
• National accountability
• Global accountability

NCD Goal 25 X 25
+ 5 targets

NCDs and Sustainable Development
Global goal and 5 targets - a subset of WHO’s targets

GOAL “25 by 25”

1. Accelerate tobacco control
2. Reduce dietary salt consumption
3. Treat people at high risk of cardiovascular diseases
4. Reduce alcohol consumption
5. Reduce physical inactivity

NCD mortality decline

NCDs and Sustainable Development
Comment: Independent global and national accountability for NCDs

NCDs and Sustainable Development
Accountability for NCDs: summary and challenges

- Leadership critical (national and global) and support for accountability
- Mechanisms to be established
- Capacity for NCDs, including accountability
- NCDs and post-2015 development agenda
